

ALEXA SETUP GUIDE

WITGARAGE

Opening, closing and monitoring your garage door whenever and wherever.

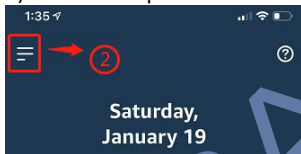

The integration of WitGarage and Alexa Skill allows a voice command to control the door status.

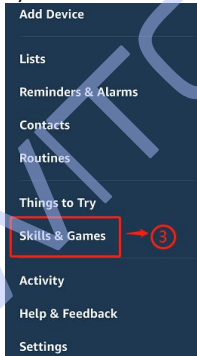

Warning: *The following steps are for reference only. The operations may be changed by Amazon Alexa app. The newest operation guide will be updated on our website. <http://witgarage.com/support/>*

Following steps describe how to set up Alexa Skill for Witgarage.

- 1) Launch the Amazon Alexa app on your phone.
- 2) Click the option icon.

- 3) Select "Skills & Games"

- 4) search the “Smart Life” skill.
- 5) Enable the skill.

Possible Alexa Voice Command

Please check the device name before you use Alexa voice command to control your door. You can also rename it (see the right figure).

Voice Command:

“Alexa, turn on Witgarage.”

“Alexa, turn off Witgarage.”

If you rename your Witgarage device as “Mike”, you should say:

“Alexa, turn on Mike.”

“Alexa, turn off Mike.”
